

Editor's Information:

Established in 1975, Trinity Computer Services develops application software systems that support the business processes and information needs of wholesale distributors. Working closely with its customers Trinity quickly evolved to be a leader in this sector, a position attained through a comprehensive understanding of specific business requirements and industry trends. Trinity's customers include major UK distribution organisations such as Interbrew, Matthew Clark Wholesale, Corporate Express and Scottish Courage.

A believer in continual product development and innovation, Trinity has a comprehensive portfolio of established distribution products which include DrinkMaster Plus, FoodTrader Plus, Trader Plus and the more recently introduced e-commerce solution, TrinityNet. Committed to offering new and innovative solutions, Trinity became a Microsoft Business Solutions Developer and Partner in order to develop and supply Trinity's new generation of distribution systems, Myridas[®] Solutions.

Press Release No: 882

Trinity Computer Services Receives 2002 Solution Developer of the Year Award from Microsoft Business Solutions for Outstanding Achievements

Trinity Computer Services recently received recognition from Microsoft Business Solutions, a leading provider of integrated business solutions, for outstanding achievements and extraordinary success. Trinity received the award of Microsoft Business Solutions 2002 Solution Developer of the Year.

Several key criteria were reviewed by Microsoft Business Solutions in selecting partners for special recognition, including outstanding sales performance, exemplary technological expertise on Microsoft Business Solution products, consistently high customer satisfaction ratings, feedback from peers and team members and a sincere commitment in enabling people and businesses to realise their full potential.

"Microsoft Business Solutions is delighted to recognise Trinity Computer Services for both its commitment to our partnership philosophy and its outstanding achievements and extraordinary successes," comments Simon Edwards, UK country manager, Microsoft Business Solutions.

Trinity has been a Microsoft Business Solutions partner since 1999 and specialises in the provision of business software solutions for the wholesale distribution marketplace. As a Solution Developer Partner, Trinity has augmented the capabilities of Microsoft Business Solutions Distribution Series software by creating a range of software modules, Myridas[®], that add the business functionality needed by wholesale distribution organisations. Myridas[®] modules are available to Trinity's own end-user customers as a part of a Microsoft Business Solutions based distribution system, or to the customers of other Microsoft Business Solutions Partners through Trinity's Partner Program.

"This recognition and award is excellent news for Trinity", says Carl Bolus, Trinity Sales & Marketing Director. "It is a reflection of three years of hard work by all of our team members, but particularly those involved in the product development process. We are very pleased to be recognised in this way by our business partner. We aim to continue extending our development programme at the high standard that has gained us this award".
